O R D E R;

In order to minimise unprofitable outlay in the construction of wells undertaken by the Harijan Welfare Department, and also to see that there is no undue delay in the execution of the works, the Government direct that in the matter of selection of sits for both draw wells ahd bore well, the Collectors of Districts should consult the officers of the Department of Industries and Commerce except in the case of sites in the deltaic tracts, and coastal areas, where from the existence of a number of wells in the immediate neighbourhood of the site selected for the sinking of the well one can be reasonably certain that copious water supply will be available within fifteen feet from the surface.
